# How to Region Switch Pico Headsets

Disclaimer: This is only switching the store files to allow global store to work on a Chinese headset. This can be undone by factory resetting or updating firmware. Please disable updates and sideload the firmware when it becomes available.

1. Factory Reset the Pico.
2. Go to "Settings" then "General" "factory reset"

Settings

- WLAN
- Controller
- Bluetooth
- Display
- LAB
- General
- Developer
